

We are very proud and delighted that our outstanding care team at the Lyndhurst Mental Health service has been selected as National Care Team of the Year 2014 in the prestigious Great British Care Home Awards.

The judges said:

Lyndhurst Staff Team- National Care Team of the Year 2014 Award

"An enthusiastic and energetic jewel in the troubled area of mental health services. This committed team of staff has been brought together over a number of years. There is now a group of staff who can respond to difficulty and success together and seek out constant improvement, care and their skills. Plans to extend skills and act as lead professionals is heartening for the service. "

Congratulations from your colleagues across the company.
