arts & craft competition 2022

Grab your paintbrushes and get creative once again this year The CareTech Arts and Crafts Competition 2022 is here!

This year's theme is '**Culture**' and we are excited to see your interpretations. To give you some ideas, this could be the culture of someone you are close to or the community and the people you care about within your service, home or school. The theme can incorporate your local area or your wider community, including your family background and heritage. It depends on you to provide your interpretation of what culture means to you.

This is a creative opportunity to express any lessons you have learned about identity, tradition, or customs whether it be your own or your friends. What does culture mean to you? How has your perception of culture grown? How do you wish for it to grow?

We want to hear the story behind your artwork too!

Tell us in a short paragraph: what inspired you to create your entry, how it fits the theme, how you felt while making it, as well as what the piece means to you.

You can also explain any important facts about it that you would like us to know. This will help provide the judges with context about you as an artist.
