

Zayed Higher Organization For People of Determination

CareTech were delighted to host a delegation from the "Zayed Higher Organization For People of Determination" at our Head Office in Potters Bar on Monday 16th December.

The delegation presented CareTech with a wonderful piece of art that was created by one of their own 'people of determination' from Abu Dhabi in the United Arab Emirates.

During the visit, staff from CareTech were able to explain in detail the work that we do as well as the levels of support that we offer to the individuals that we care for across all of our Children's, Adults and Specialist Services.

The visiting delegation was most impressed by the breadth of services that we support and the positive outcomes that we achieve for our Service Users and have invited CareTech to visit the UAE to share our experience and discuss 'best practice' with a wider audience.
