Services**

Intake & Assessment placement for young people in crisis

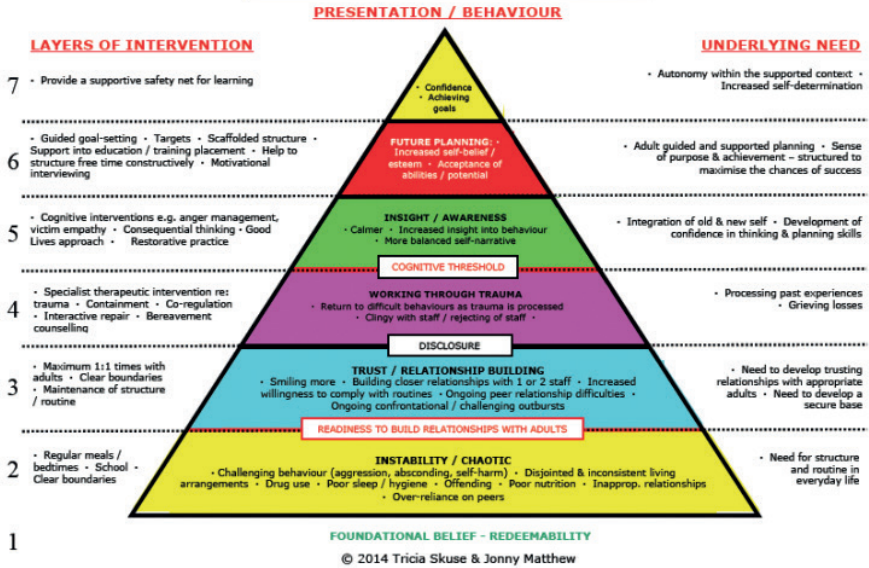

We specialise in providing placements for young people who require an assessment of need in conjunction with a recommended transitional plan.

Our specific focus of work is to provide young people with the opportunity to have their current needs effectively assessed across a variety of developmental areas, so future support services can implement effective planning to meet their needs within their short and long term futures.

We offer::

- 26-week placement with a minimum of a 16-week assessment.
- Care, education and therapy assessments are carried out by our multi-disciplinary team.
- A nurtured, structured, stable environment with clear boundaries that young people can call home.
- A structured programme of education, outdoor pursuits and personal development.
- Experienced individuals who work together to provide the best outcomes for young people.
- A Unique service providing young people with a high-quality assessment placement.
- Completed MDT assessments.

TRAUMA RECOVERY MODEL

- An integrated model of therapy, care and education, using the trauma recovery model to assess a child's needs.
- Comprehensive clinical, educational and care assessments.
- Case formulations for each young person and an individual psychological developmental profile.
- Weekly case reviews with the MDT team to review each case.

- Direct clinical oversight with regular reviews and progress reports.
- MDT measurable outcomes.
- Encouragement to each young person to participate in the placement planning process.
- Fully registered independent schools.
- A fully comprehensive training programme to all our staff.

Areas of Specialism:
Impact of trauma, abuse and neglect
Ages: 10 to 18 years old
Location: Powys and Herefordshire

As Managing Director, my priority is to maintain and continually improve our services that offer bespoke placements in high quality, good value, sustainable homes.

We are a network of services operating under the CTC brand and over the last 15 years we have acquired and developed a number of specialist providers who offer specialist residential placements for Children and Young People with a variety of complex needs. Our network of services provides a unique opportunity for collaborative working, enabling us to share resources and knowledge.

I am proud to be the director of a highly dedicated and motivated team of people whose primary focus is delivering the best outcomes for Children and Young people and who are always prepared go that extra mile to achieve this.

Rob McKay

**Managing Director CareTech
Children's Services**

Our unique service is the foundation of a young person future providing stability, enabling them to transition to a more permanent home.
